

Women in Design - Kansas City 2011 Scholarship Fund Donation

Women in Design - Kansas City is an association of women involved in architecture and the allied design professions who have come together to offer programs, community outreach, mentorship and historical research to our members and to the community.

Our group formed in April 2005 and is administered through the American Institute of Architects - Kansas City. Our roster of over 500 women includes representatives from architecture, interior design, graphic design, landscape architecture, engineering, construction and law.

In celebration of our five year anniversary we established the Women in Design - Kansas City Scholarship which will be available to women at any level of study, who are in pursuit of a degree in design related fields such as Architecture/Interior Design/ Landscape Design/ Industrial Design/ Product Design. Judgment for WiD-KC scholarships is based on need, academic excellence and demonstrated leadership.

Women in Design - Kansas City greatly appreciates your support to our cause.
